

RIGINOV

MY RING SIZE GUIDE

Instructions

1. Please print this page in order to find your ring size. To obtain an accurate measurement, make sure that the **"scale to fit"** option is unchecked and page scaling is set to **100%** on your print dialog box (CTRL+P).

2. Once printed check if the file has been printed properly on scale. Use a ruler to measure the shown bar, it must be precisely **30mm**.

3. Use a ring that perfectly fits the finger you want sized. Position your ring over the circles shown below to determinate which one matches your size. Make sure that the **inner edge of the ring** is aligned with the **outer edge of the circle**. The diameter should correspond exactly with the diameter of your ring. If your ring falls between two sizes, we recommend to choose the larger size.

Tip: For better results measure your finger at the end of the day and when your fingers are warm. (As fingers are smaller in the early morning and when cold).
